## **About Our Panel Members**

Tom Gutnick — technologist, educator, musician — has worked in the computer industry for most of his adult life. As the owner of Sunny Banana IT Consulting, he helps small businesses and home offices use technology more effectively. He also teaches personal technology at Arlington Adult Education and information technology at Northern Virginia Community College.

Ray Parker is a knowledgeable technician and a longtime advocate of software which works for people who are not knowledgeable technicians. With a grounding in mainframe operating systems, he migrated to midrange server platforms, then into client/server applications and desktop/mobile devices. Generally, especially if it has software, he has broken it many times and fixed it at nearly as often. In 2011, he took on the challenge of Epsilogix (<http://Epsilogix.com>), supporting large corporations who are practitioners of Business Service Management, and small businesses who want to grow into larger businesses. You can find him on LinkedIn (<https://www.linkedin.com/in/rayparker>).

Stan Schretter is an OLLI member and has been avidly exploring technology since attaching ham radio antennas to his parents house roof at age 13. He frequently teaches at OLLI on technology and photography topics, and keeps updating his knowledge with classes at George Mason University.
