

Exit from an OLLI Class

You can exit from a class at any time without disturbing the other participants.

While you are in a class, move your mouse to the bottom of the Zoom window to bring up the Zoom toolbar. From the toolbar, click on “Leave”.

Zoom will verify that you actually do wish to leave the meeting (that you didn't click the “Leave” button accidentally). It will pop up this button:

Just click leave meeting and you will have exited the class. Or click cancel if you change your mind.

Note that even after exiting the class, you may re-enter the class again later if it is still in progress.
