

## **Turning Video Camera On/Off On Apple Computer**

### **Desktop/mac mini/laptop:**

- 1) Scroll cursor on to the image on the screen.
- 2) Look at icon bar at bottom of the screen and find the video camera off/on icon. It will be to the right of the microphone off/on icon.
- 3) Tap the icon to select either on or off. The initial position is off, as shown by the red line through the icon.
